BUILDING PERMIT APPLICATION REQUIREMENTS:

To receive a building permit, the City of Peru has the following requirements in addition to submitting a building permit application.

- Submission of the name, contact information, and applicable licensing information of all contractors, architects, and engineers for a project.
- Submission of all construction plans and specifications including the principal dimensions, and cost estimates.
- If there are any potentially hazardous materials present, proof of abatement will be required before any work is to begin.
- Any outstanding balances with the City of Peru including utilities and property liens will need to be paid in full before a permit is issued on a property.
- An easement check is required for new construction & fencing. Easements for a property can be located on plat maps at the County Clerk's Office. It is the responsibility of the property owner to perform an easement check. Any relevant documentation will need to be provided to the city.
